

Winter 2026 Newsletter

The 2026 riding season is in full swing. Hopefully your sled is running good and you've been able to get out. Today some rodent predicted 6 more weeks of winter. This rodent isn't always right, but we're hoping he is. Keep your snow dancing shoes close though!

We would like to thank all of our landowners for making it possible to even have trails. Remember, trails are generally marked where they are for a reason, that's where they want us to go. Sometimes we alter them during the season, but please, **STAY ON TRAIL!**

Our groomer operators have been out there in full swing. Every grooming run takes at least a few hours. They get up early, sometimes on little sleep, have to warm up the machine, get there snacks and caffeine ready, check things out with the groomer, and then they are off. Remember, **YIELD** to a groomer when you see them coming. If you are happy seeing them, give them a **FIST BUMP!** There's a video on website and Facebook that show's just that.

Please support the local businesses that you stop at, most people in your group should purchase something at each stop. Operate your snowmobiles safely and legally. All ages welcome!

Are trails **OPEN** or **CLOSED**? The **NYSSA Trail Map** is the official platform. We try and announce FB too. Updates and cautions are noted on the web-map. It's good to check your planned route before you ride.

Want a deal on a wrap for your sled? Use code **BSR20** save 20%

New this year: Family Photo Contest. Help us show the world that snowmobiling is a family friendly activity. Submit a pic of your family on our trail, via Facebook or club email. We'll decide at end of year meeting.

Some prizes will be featured on our Facebook page. Visit it if you're interested in sneak peeks.

Visit our supporters listed on bottom of our webpage. These local businesses help the club provide great trails.

The new trail, from Fulton's C4 to Byrne Dairy is open. If you've ridden it, we know parts are rough. We could not brush hog it ahead of time due to timing. This trail is not funded this year, we are hoping for next year. One of our members purchased a small drag and snowmobile to groom it, he made his first run Feb 2. Hopefully this helps smooth the trail out. We recently added a few more signs. Once we get approved for a bridge over Mud Lake Outlet, we won't have to go down Ellison Rd. Please operate at a reasonable speed down any section of road. **Come to a meeting, we can always use help and ideas.**
